

Delaware Valley Ornithological Club

Bob Billings Big Year Award

Pelagic boundaries

The geographic area for the competition includes the pelagic waters of New Jersey and Delaware.

For the New Jersey pelagic boundaries,

see <http://www.nj Audubon.org/Portals/10/Research/PDF/NJBwinter07.pdf>

The pelagic waters of Delaware overlap those of New Jersey. Delaware's southern limit is a line due east from the coast at latitude 38° 27' 04" N.

Pelagic trip leaders normally announce when the boat enters the pelagic waters of a particular state.
