

DVOC Field Trip to Pedricktown & SW New Jersey

We will bird much of SW New Jersey looking for Ruff, Bald Eagle, spring migrants, etc.

The 5:15 AM meeting spot is at the intersection of Center Square Rd. & the railroad tracks. We will look for Am. Woodcock and then check some other spots before heading to the 7:00 AM rendezvous at the causeway.

It is best to carpool from your departure spot. You could conceivably leave your car at the causeway, but we may not be returning to the same location, so bring a map.

Pack a lunch. We will stop at Richman's Ice Cream.

Directions from Philadelphia : Take I-95 south to the Commodore Barry Bridge. Go south on rte. 130 for approx. 2.7 miles. Go left on Center Square Rd. The RR Tracks are only a short distance. Go an additional 1.7 miles on Center Square Rd. to reach Pedricktown Rd. Make a right, and park on the right shoulder just before the causeway.
