

CLUB NOTES

Fifteen regular meetings were held in 1960 with an average attendance of forty-four active members and nine guests. Nineteen new active members were elected, and three deaths of members were reported. A heavy snowstorm which practically paralyzed traffic in the Philadelphia area forced the cancellation of the early March meeting. The informal summer meetings saw the usual intimate gatherings of dedicated birders. Although there is no particular speaker or presentation at these warm weather meetings, there is always something of interest in the discussions and extemporaneous arguments, and the regulars often feel that they enjoy these get-togethers as much as the formal meetings.

It is with regret that we noted that our fellow-member, Julian Potter, relinquished his assignment of many years as regional editor of "Audubon Field Notes"; and it is with pleasure that we record the appointment of DVOC'er David Cutler as Mr. Potter's successor. Cooperating reporters of the U. S. Fish and Wildlife Service may forward their significant observations to David A. Cutler, 525 Kingswood Road, King of Prussia, Pa.

Club members as usual participated in a number of Christmas Counts, and acted as leaders in several field trips held in the Jersey shore area by Audubon groups. The Club was also represented unofficially by one or more members at the annual meetings of the Wilson Society and AOU, while others travelled far afield on ornithological vacation trips.
