

HOURS OF OBSERVATION AT THE BAKE OVEN KNOB,
PENNSYLVANIA HAWK LOOKOUT (1957-1981)

DONALD S. HEINTZELMAN

In a series of reports published previously in *Cassinia*, the results of the counts of migrating diurnal birds of prey observed passing Bake Oven Knob, Lehigh County, Pennsylvania, in autumn, were presented. The number of days of observation for each year (autumn) also were presented, but I did not include the number of hours of observation for each year. However, with vastly increased interest in hawk watching, hawk migration research, and many observers at other lookouts now including the hours of observation per season with their records, it seems worthwhile to record here the number of hours of observation for each past season at Bake Oven Knob, Pennsylvania. This information was extracted from the original field data sheets used at this site, and from field notebooks used prior to the preparation of field data sheets.

Year	Hours of Observation	Year	Hours of Observation
1957	32	1971	591
1961	36	1972	654
1962	116	1973	652
1963	155	1974	539
1964	258	1975	472
1965	353	1976	531
1966	363	1977	381
1967	362	1978	378
1968	349	1979	197
1969	488	1980	175
1970	604	1981	260
